

V. Conclusion

Referring back to the explanatory Note on page 39, the status in the Philippines of the issues raised in this survey is highly tentative since there is no formal implementing structure of office within the NCCA that attends to these at the present time. Anticipating the implementation of the Implementing Rules and Regulation of RA 10066, one such office will be organized within the NCCA. Then and only then will there be more definitive and official statements on the issues raised in this survey.

Status statements incorporated in this paper describe the prevailing antecedents and accomplishments done in the level of an ad hoc and de facto ICH committee undertaking the tasks in the interim.

Upon final and formal organization of the de jure ICH office, future developments will be provided the ICHCAP.
